PROFESSIONAL SUMMARY

Final-year Electronics and Communication Engineering student with a strong passion for Software Engineering, Artificial Intelligence, and Full-Stack Development. Skilled in Python, Java, JavaScript, and modern web technologies, with hands-on experience building AI-powered applications, machine learning solutions, and interactive web platforms. Demonstrated ability to develop real-world projects using React, cloud technologies, and data-driven approaches. Strong foundation in Data Structures, Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks. Eager to contribute to innovative software products while continuously learning and growing as a technology professional.

EDUCATION

JSS Academy of Technical Education, Bengaluru	Sep 2023 – Present
Bachelor of Engineering in Electronics and Communication Engineering	
CGPA: 8.47/10	
Kumarans Composite PU College	2022 – 2023
Percentage: 92.83%	
Prarthana Central School	2020 – 2021
Percentage: 91.17%	

RELEVANT COURSEWORK

- Data Structures and Algorithms
- Object-Oriented Programming
- Database Management Systems
- Operating Systems
- Computer Networks
- Artificial Intelligence
- Cloud Computing

EXPERIENCE

IBM SkillsBuild Virtual Internship	Jun 2026 – Present
Artificial Intelligence & Cloud Technologies — Remote	
• Selected for the IBM SkillsBuild Internship Program focused on Artificial Intelligence, Cloud Computing, and emerging technologies. • Completed hands-on learning modules covering AI, cloud technologies, and industry-relevant digital skills. • Developed practical knowledge of modern software development workflows, problem-solving, and technology solutions. • Collaborated with mentors and peers through project-based learning activities and technical workshops.	
TATA Group – Forage Virtual Job Simulation	May 2024 – Jun 2024
Generative AI Powered Data Analytics	
• Completed a virtual job simulation focused on Generative AI applications in data analytics. • Performed data cleaning, visualization, and insight generation from business datasets. • Applied AI-assisted analytical techniques to support business decision-making.	

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, C
- **Web Development:** HTML, CSS, React.js, Node.js
- **Databases:** MySQL, MongoDB
- **AI/ML:** Machine Learning, Random Forest, Data Analysis, Generative AI, Gemini AI
- **Tools & Platforms:** Git, GitHub, Vercel, VS Code, Jupyter Notebook
- **Core Subjects:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

ResumeIQ Nexus — AI-Powered ATS Resume Analyzer Live Demo — [GitHub](#)

- Developed an AI-powered ATS Resume Analyzer using React, JavaScript, and Gemini AI.
- Implemented resume-job description matching, ATS score calculation, and skill-gap analysis.
- Generated personalized recommendations to improve resume quality and job readiness.
- Deployed the application on Vercel for real-world accessibility and testing.

Heart Disease Prediction Using Machine Learning GitHub

- Built a machine learning model to predict heart disease risk using healthcare data.
- Performed data preprocessing, feature engineering, and exploratory data analysis.
- Implemented Logistic Regression, Random Forest, and KNN algorithms.
- Achieved over 83 percentage accuracy using Random Forest classification.

BrainWatch: Real-Time Seizure Detection and Prediction Using EEG (Ongoing Research Project)

- Working on the development of a machine learning-based framework for seizure detection and early prediction using EEG signals.
- Performing signal preprocessing, feature extraction, and classification using the CHB-MIT EEG dataset.
- Investigating Random Forest-based models for accurate seizure prediction.
- Designing an FPGA-compatible architecture for future real-time deployment and hardware acceleration.

ACHIEVEMENTS

- Participated in AWS Skill Builder Cohort 3 and completed cloud learning modules.
- Completed Infosys Springboard Pragathi Path to Future Cohort 6.
- Built multiple AI and Machine Learning projects focused on solving real-world problems.
- Prepared and presented a technical research paper on EEG-based seizure detection and prediction as part of academic research activities.
- Actively strengthening problem-solving skills through Data Structures and Algorithms practice.

CERTIFICATIONS

- Full Stack Development Training
- Infosys Springboard - Pragathi Path to Future
- AI Primer Certification
- Computer Vision Fundamentals
- Cloud Computing Training
